#### essentials

The Dictionary Service translates applications to over eighty languages automatically.

The service ensures the correct wording and terms in your applications.

Integrate to your applications for translation.

The service offers

- a dictionary with 7,000 words in 88 languages, covering real estate industry terms
- easy to use multi-lingual integrations for global applications
- valuable resource for language learners and professionals in the real estate industry for improved communication

## functions

Get an overview of all translations on the main page.

## view all available translations

Choose an application to view all available translations.

Filter by specific words to find their translations.
